TECHNICAL SKILLS

Programming Languages

C#, C++, Python, Golang

Frontend Development

Angular, React, Next.js, HTML, CSS, JavaScript, TypeScript

Backend Development

ASP.NET Core, .NET Core, Node.js, Express.js, REST APIs, Entity Framework Core

Databases & Search

PostgreSQL, MongoDB, ClickHouse, Elasticsearch, Qdrant

AI & Libraries

LLMs, RAG, LangChain, LangGraph, CrewAI

Architecture & Messaging

Microservices, Kafka, Distributed Systems, System Design

DevOps & Tools

Docker, Git, GitHub, CI/CD, Vercel, Linux

CERTIFICATIONS

Advanced Data Structures and Algorithms in Python

DataCamp | 2026

UPSKILLING

Full Stack with Gen AI

LANGUAGES

English – Proficient

Tamil – Native Proficiency

PROFESSIONAL FOCUS

Secure API Development

Enterprise Application Systems

Data Processing & Search

Full Stack Integration

Application Automation

JERRY FELIX

Full Stack Developer

Backend Development | Full Stack Applications | AI Solutions

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience spanning backend engineering, technical training, and full stack development. Experienced in C#, ASP.NET Core, Angular, React, Golang, PostgreSQL, and distributed systems. Skilled in building REST APIs, secure enterprise applications, and data-driven solutions; currently contributing to ePUB application automation while expanding MEAN-stack and Generative AI expertise.

PROFESSIONAL EXPERIENCE

Trainee Backend Developer

Oct 2023 – Apr 2024

Sardonix Technologies Pvt. Ltd.

Thanjavur, India

- Completed a six-month technical training program focused on real-time backend development.
- Built foundational experience with .NET, REST APIs, SQL optimization, version control, internal modules, and code reviews.

Backend Developer

Jun 2024 – May 2026

Sardonix Technologies Pvt. Ltd.

Thanjavur, India

- Contributed to two enterprise-grade security applications: Site Management System and Vehicle Management System.
- Developed secure backend services and REST APIs using ASP.NET Core and microservice-based architecture; implemented role-based access control (RBAC) for site and vehicle workflows.
- Used PostgreSQL for transactional data, ClickHouse for analytics, Elasticsearch for search, and Kafka for event-driven processing.
- Supported testing, deployments, and production issue resolution in collaboration with cross-functional teams.

Trainee Full Stack Developer

Aug 2026 – Present

Lumina Datamatics

Chennai, India

- Learning the ePUB web application's end-to-end workflow and existing modules while contributing to automation functionalities.
- Using the MEAN stack, PostgreSQL, and Python to contribute to ePUB automation functionality; assisting with feature analysis, fixes, and enhancements under guidance.
- Building practical understanding of frontend-backend integration, automation, and product development practices.

KEY TECHNICAL CONTRIBUTIONS

- Built scalable ASP.NET Core services and microservice-based backend components.
- Implemented and supported Kafka-based event-driven processing.
- Worked with PostgreSQL, ClickHouse, and Elasticsearch for data and search workflows.
- Applied API development, debugging, testing, and deployment practices.
- Contributed to secure enterprise workflows using RBAC and validation.
- Expanded full stack capability through Angular, React, MEAN stack, and AI learning.
